Mr. Kaufman,

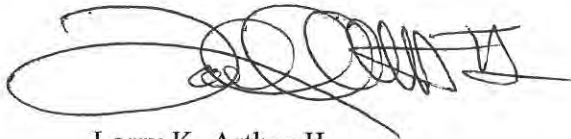

I am writing this letter in response to an e-mail requesting information related to our experiences with your product.

Our past usage of the product has been as both an active way to determine when and where smoking is occurring at our facility and as a passive deterrent to cigarette use. The system allows us to respond quickly to violations of our smoking policy and to deal with those violations according to our student code of conduct.

The system also acts as a visible deterrent to smoking in the restroom. Students and others know when they enter the area covered by the detection system that the area is being actively monitored and any tobacco smoking will be detected.

I hope that this has been helpful in describe our usage of the product. We look forward to continuing to take advantage of the feature your product offers us. If you would like any further information, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Larry K. Arthur II', with a large, sweeping flourish extending to the left.
